1. Goods to be sent within the framework of the Korean relief work are dispatched by the firm of Groma. Chairman of the relief commission, which includes also non-party men, is Professor Dr. med. Karl Linser. All the practical work is being done at the headquarters of the National Council in cooperation with the "Volkssolidaritaet" (the official East German welfare organization). Krebs (Enu), chief of the Organizational Department of the National Council, is charged with the administrative and organizational handling of the relief work for Korea, while the monetary means are made available by the Volkssolidaritaet, which buys the commodities involved from the East German industry and also collects used articles from the population.
2. Source furthermore reported that there was feverish activity in the shipping department of the firm of Groma in connection with the stepped up campaign for the rehabilitation of Korea. Among others, boxes for the shipping of about 100,000 woollen blankets were being marked for dispatch to Korea. Relief goods will be sent via Brest-Litovsk and the Trans-Siberian Railway.
